

Emory Knoll Farms

Sedum middendorffianum var. diffusum

Another tough, reliable, dark green-leaved, yellow-flowering groundcover. This plant was a star in the Michigan State plant trials. This variety is typically one of the earliest green roof plants to bloom in the season. Showy, red seed heads appear after flowering. It is very similar in habit and appearance to *Sedum kamtschaticum* var. *floriferum* 'Weihenstephaner Gold', but, it blooms earlier. Foliage turns a beautiful red before dropping in the coldest months. Small maroon-red rosettes are set in winter. An outstanding selection on a green roof for seasonal interest and reliability.

CHARACTERISTICS

Foliage Color: Green

Flower Color: Yellow

Bloom Time: Midsummer

Winter Interest: Russet foliage

BOTANICAL INFORMATION

Place of Origin: Siberia, China, and Japan

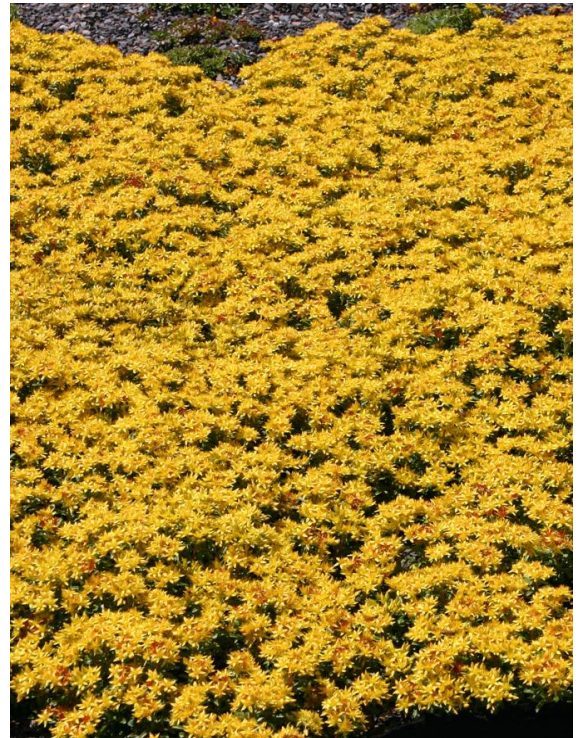

Hardiness Zone: 5

Height: 4" Spread: 8"+

Self-sowing: No

Light Requirement: Full sun

Plant Use: Groundcover

PLANT SIZE

Deep nursery plug
3" deep x 1.5" across at the top

PLANT SPACING

6 Plugs per sq. ft. – 3 Month coverage
4-5 Plugs per sq. ft. - 6-12 Month coverage
2-3 Plugs per sq. ft. – 12-18 Months coverage
