

Description

Our native Achillea is white-flowered, unlike the more common garden yellow varieties. It is a great pollinator attractant and works as an accent plant within a base of succulent ground cover plants.

Typically, this plant prefers deeper media - at least 6".

Profile

- **Botanical Name:** Achillea millefolium
- **Family:** Asteraceae
- **Plant Type:** Hardy Perennial
- **Plant Usage:** Accent
- **Hardiness Zone:** 2-9
- **Foliage Color:** Green
- **Flower Color:** White
- **Bloom Time:** Summer
- **Winter Interest:** Dormant
- **Height:** 24"
- **Spread:** 24"
- **Light Requirement:** Full Sun
- **Origin:** North America
- **Self Sowing:** A little
- **Shade Tolerant:** No
- **Substitutes:** [Dianthus arenarius](#),
