

## Description

Though beautiful when covered with yellow flowers in spring, this species is grown mainly for the compact foliage; lime green in the warm seasons and reddish-pink when cooler. A great addition, both in texture and color, to add year-round interest to a green roof.

## Profile

- **Botanical Name:** *Delosperma nubigenum*
- **Family:** Aizoaceae
- **Plant Type:** Hardy Succulent
- **Plant Usage:** Ground Cover
- **Hardiness Zone:** 5
- **Foliage Color:** Lime Green to Red
- **Flower Color:** Yellow
- **Bloom Time:** Late Spring
- **Winter Interest:** Pink-Red foliage
- **Height:** 3"
- **Spread:** 8"
- **Light Requirement:** Full Sun
- **Origin:** Southern Africa
- **Self Sowing:** No
- **Shade Tolerant:** No
- **Substitutes:** [Delosperma cooperi](#),
