

Description

A tall Mid-Atlantic Native grass with bluegreen foliage that turns red in fall and winter. Looks beautiful when in seed when back-lit by sunlight. Caution should be used as it will self-seed into other areas of a roof and can look weedy if not maintained.

Profile

• **Botanical Name:** Schizachyrium scoparium syn. Andropogon scoparius

Family: Poaeceae
Plant Type: Grass
Plant Usage: Accent
Hardiness Zone: 3-9
Foliage Color: Blue-Green
Flower Color: Blue-Green
Bloom Time: Late Summer

• Winter Interest: Red-Brown Dried Foliage

Height: 36"Spread: 24"

• Light Requirement: Full Sun

• Origin: North America

• **Self Sowing:** Yes, can be aggressive.

• Shade Tolerant: No

• Substitutes: Sesleria caerulea,
