

Description

A clumping sedum with large, round, blue-gray to blue-green leaves. Very striking pink-tinged foliage, before going dormant for the winter months. Showy, dark pink flowers in the early autumn attract a variety of pollinators for a late-season feast. Best used as an accent plant as it is not as robust as the standard sedum palette, and prefers a richer soil.

Large orders may require custom growing. Please contact the office for lead times.

Sedum cauticola Lidakense Spec Sheet

Profile

- **Botanical Name:** Sedum cauticola 'Lidakense'
- **Family:** Crassulaceae
- **Plant Type:** Hardy Succulent
