

## Description

A beautiful Sedum telephium cross, this taller variety of Sedum offers seasonal color on a green roof. Similar to the better known 'Autumn Joy', but but with far more visual interest. Blue-green foliage turning to shades of purple in the late summer, with dark reddish-purple stems. A good choice for attracting pollinators. The taller foliage makes for a nice accent and increases the potential for biodiversity. Foliage drops in cooler temperatures, however the dried stems and flower heads remain strong all winter.

This plant will benefit from a deeper soil profile or where the green roof media has been mounded.

We keep this plant in smaller quantities in our regular inventory. Please contact the office for lead times.

## Profile

- **Botanical Name:** Sedum telephium 'Vera Jameson'
- **Family:** Crassulaceae
- **Plant Type:** Hardy Succulent
- **Plant Usage:** Accent
- **Hardiness Zone:** 4
- **Foliage Color:** Blue-Green
- **Flower Color:** Pink
- **Bloom Time:** Early Autumn
- **Winter Interest:** Dormant
- **Height:** 12"
- **Spread:** 12"
- **Light Requirement:** Full Sun
- **Origin:** Japan
- **Self Sowing:** No
- **Shade Tolerant:** No
- **Substitutes:** [Sedum sieboldii](#), [Sedum caudicicola 'Lidakense'](#),
