

Description

A beautiful Sedum telephium cross, this taller variety of Sedum offers seasonal color on a green roof. Similar to the better known 'Autumn Joy', but but with far more visual interest. Blue-green foliage turning to shades of purple in the late summer, with dark reddish-purple stems. A good choice for attracting pollinators. The taller foliage makes for a nice accent and increases the potential for biodiversity. Foliage drops in cooler temperatures, however the dried stems and flower heads remain strong all winter.

This plant will benefit from a deeper soil profile or where the green roof media has been mounded.

We keep this plant in smaller quantities in our regular inventory. Please contact the office for lead times.

Profile

- **Botanical Name:** Sedum telephium 'Vera Jameson'
- **Family:** Crassulaceae
- **Plant Type:** Hardy Succulent
- **Plant Usage:** Accent
- **Hardiness Zone:** 4
- **Foliage Color:** Blue-Green
- **Flower Color:** Pink
- **Bloom Time:** Early Autumn
- **Winter Interest:** Dormant
- **Height:** 12"
- **Spread:** 12"
- **Light Requirement:** Full Sun
- **Origin:** Japan
- **Self Sowing:** No
- **Shade Tolerant:** No
- **Substitutes:** [Sedum sieboldii](#), [Sedum caudicicola 'Lidakense'](#),
