Emory Knoll Farms

Allium senescens ssp. montanum

An Allium variety featuring strong upright foliage which showcased vibrant green color and thicker leaves. Pink to white buds open to pink to lavender flowers that attract butterflies, bees, and birds. This plant keeps its foliage well into the autumn months and may retain its foliage in some locations or in mild winters. Vertical foliage makes for a nice accent in the green roof meadow, adding some height and increasing the potential for biodiversity. Sold as bare root bulbs.

CHARACTERISTICS

Foliage Color: Blue-green

Flower Color: Lavender pink

Bloom Time: Late summer to early autumn

Winter Interest: Blue-green

BOTANICAL INFORMATION

Place of Origin: Europe to Siberia

Hardiness Zone: 4

Height: 15” Spread: 10”

Self-sowing: Yes

Light Requirement: Full sun

Plant Use: Accent

PLANT SIZE

Bare root bulb

PLANT SPACING

Typically planted at 2-3 bulbs per square foot

PLANTING MEDIUM

Green Roof Growing Medium 4” Min. Depth
