Emory Knoll Farms

Sedum sieboldii

This species features fleshy, rounded, pale blue-green leaves, edged with dark pink, on arching stems. Individual plants form rounded mounds of foliage that creates a bold texture when planted in groups. This is an excellent choice for a late season display of color. Bright pink flowers provide quite a showcase in mid-autumn, at a time when the leaves are also turning pinkish-red in response to the cooler temperatures. Slower growing than groundcover sedums, and completely dormant in winter, it's best to use this plant as an accent. This species will also benefit from extra care to establish on a roof or in a wall. Well worth the effort!

CHARACTERISTICS

Foliage Color: Blue-green w/ some pink

Flower Color: Pink

Bloom Time: Early to Mid-autumn

Winter Interest: None

BOTANICAL INFORMATION

Place of Origin: Japan

Hardiness Zone: 6

Height: 8” Spread: 8”+

Self-sowing: No

Light Requirement: Full sun

Plant Use: Accent

PLANT SIZE

Deep nursery plug
3” deep x 1.5” across at the top

PLANT SPACING

6 Plugs per sq. ft. – 3 Month coverage
4-5 Plugs per sq. ft. - 6-12 Month coverage
2-3 Plugs per sq. ft. – 12-18 Months coverage
